PROFESSIONAL SUMMARY

Data Science postgraduate specializing in Power BI and Tableau dashboard development, with hands-on experience turning raw operational and workforce data into interactive, decision-ready visualizations. Skilled in DAX, Power Query, and data modeling, with project experience spanning call-center operations, workforce equity analysis, and manufacturing downtime diagnostics. Combines strong SQL and Excel fundamentals with a track record of translating complex datasets into clear, stakeholder-ready insights.

EDUCATION

Masters of Science : Data Science

S.I.E.S College of Arts, Science and Commerce

GPA: 7.6 /10

06/2026

Mumbai

Bachelor of Science : Information Technology

S.K. Somaiya College, Somaiya Vidyavihar University

GPA: 8.7 /10

09/2023

Mumbai

PROJECTS

Call Center Performance & Diversity Analytics — PwC Power BI Job Simulation

Power BI | DAX | Data Visualization

- Built interactive Power BI dashboards analyzing call center performance trends, customer retention, and diversity & inclusion metrics as part of PwC's Power BI Job Simulation.
- Translated raw operational data into visual KPIs and trend breakdowns, surfacing patterns to support stakeholder decision-making on retention and workforce diversity.

Workplace Salary & Equity Analysis Dashboard — Freelance Client Project

Power BI | Tableau | Data Analysis

- Designed a dashboard analyzing salary distribution, marital status, and family composition across occupations for a freelance client, uncovering gender-based pay differences and the impact of marital status and age on earnings.
- Delivered 20 data-driven insights on salary progression and workplace equity, directly informing the client's understanding of pay-gap drivers and inclusive workforce planning.

Manufacturing Downtime Analysis Dashboard — Deloitte Data Analytics Job Simulation

Power BI | Data Analysis | Root-Cause Analysis

- Built a dashboard analyzing factory and device-level equipment downtime across four global sites, identifying Daikibo-Factory-Seiko (480 units) and Daikibo-Shenzhen (420 units) as the highest-downtime locations.
- Pinpointed Laser Welder (480 units) and Laser Cutter (430 units) as the leading downtime-contributing devices, delivering findings to guide preventive maintenance and equipment upgrade prioritization.

PROFESSIONAL EXPERIENCE

Data Science Intern

Mar 2024 - Apr 2024

Prodigy InfoTech

- Conducted EDA on 500k plus records, improving decision accuracy by 15 percent and reducing processing time by 30% through data cleaning and transformation.
- Enhanced model performance by 12% through feature engineering and applied statistical analysis to support 3 key business strategies.

SKILLS

- Generative AI:** Prompt Engineering, LLM Application Design, Retrieval-Augmented Generation (RAG) concepts, AI Workflow Design
- Machine Learning & Deep Learning:** PyTorch, TensorFlow, BERT, Temporal Fusion Transformers, LSTM, XGBoost, Predictive Modeling, Feature Engineering, Model Evaluation, Cross-Validation, Hyperparameter Tuning
- Business Intelligence:** Power BI (DAX, Power Query, Data Modeling), Tableau, Dashboard Design, Data Storytelling
- Programming & Tools:** Python (Pandas, NumPy, Scikit-learn), SQL (MySQL), Git, GitHub, Jupyter, Google Colab
- Data Analytics & Visualization:** Advanced Excel (Pivot Tables, VLOOKUP, Macros), Data Cleaning, Trend & Correlation Analysis, Stakeholder Reporting, Matplotlib, Seaborn, EDA
- Professional Skills:** Structured Thinking, Resilience, Resourcefulness, Presentation, Results Driven Mindset.

CERTIFICATIONS

- TCS iON Career Edge – Young Professional, TCS iON
- IBM Data Science Professional Certificate, IBM
- Google: Generative AI, Large Language Models, Analytics for Beginners.
- Additional job simulations completed via Forage: BCG (Data Science), PwC (Power BI), Deloitte Australia (Data Analytics);

PUBLICATIONS

- Temporal Fusion Transformer Based Air Quality Index Forecasting Using Multivariate Time Series Data ,Zenodo (Open Access Repository), 2026
- DOI: <https://doi.org/10.5281/zenodo.19595343>
- Presents a time-series forecasting approach using deep learning for AQI prediction across multiple cities

EXTRACURRICULAR ACTIVITIES

- Academic** — Lead , Placement Cell of Data Science, Department of Data Science, S.I.E.S. College of Arts, Science and Commerce
- Sports** — Runner-up in Singles, Mumbai Intercollegiate Badminton Tournament, Ruia College, Mumbai (October 2018)
- Content writer** — Technical Blogger on Substack, covering topics in Machine Learning, AI, Data Science, and Big Data

LANGUAGES

English (Fluent), Hindi (Fluent) Marathi (Fluent),
German (A1 level)

HOBBIES AND INTERESTS

Cricket, Badminton, Cycling, Traveling, Photography, Gaming, Reading
Nonfiction Literature (Science Fiction)
